

Odd Minds Foundation was founded in August 2025 out of our wish to help children and young people in need.

OUR MISSION

To help children deprived of parental care and children with special needs find professional fulfilment and have a dignified and meaningful place in society.

What we do

Partner centres

Iris Social Services Complex, Varna – rehabilitation and integration for children with special needs.

Family-type Placement Centre, Lesnovo – a home for 12 children without parental care.

Projects

Therapies. We fund biofeedback, neurofeedback and sensory room therapies for children with special needs.

Employment machines. A heat press at Iris – young people learn a trade, and the income supports additional therapies.

Towards independence. We guide young people from Lesnovo turning 18 through their next steps in education and work.

A better environment. We renovated the Iris courtyard so the children can have activities outdoors.

At the bazaar

Lafetki conversation napkins

20 napkins with questions that create real conversations around the table. Proceeds fund therapies for children with special needs.

Children's cookbook

31 tried-and-tested sweet and savoury recipes, created by the children at the Iris centre in Varna in 2025. Proceeds support the centre.

YOUR DONATIONS

All the donations we collect go towards new ID documents for young people leaving foster care at 18 – just when their ID card expires. Without ID they can't start a job, aren't full legal members of society, and are fined every time the police stop them.
